

7.3 Portray the performance of the institution in one area distinctive to its priority and thrust.

• Book Bank

Academic institutions play pivotal role in educating, making students responsible citizens and developing their sense of social responsibility. To promote such ethics and culture our college has initiated the service of book bank.

It refers to the facility being provided by our college to the students to get the books from college free of cost in addition to facilities of library. Also donation from staff members and donation from ex-students is included in book bank facility as sometimes multiple copies of the same book is available with them .In book bank scheme a rich collection of recommended books and reference books of NET and SET and other competitive examinations are available. In this lending facility books are provided to the students that will help them in their studies. Our staff members have also made students aware about this facility so that more and more students can derive benefit from it. In all these years our college has observed that students seemed to be reaping benefits from this facility as in higher education they need to refer, for one subject, two or three authors and they may not be able to buy or get it all issued from library .Also students are preparing for competitive examinations after graduation so book bank facility proved to be a boon for them. So book bank helps them in such a situation. The needy students get the books and can grow and widen their knowledge base which can eventually result in good academic records.

• Covid-19 awareness programs

Covid-19 has been the unprecedented crisis which has taken a toll on everybody's life. Maintaining awareness and vigilance is crucial as no treatment is available. Timely access to accurate information and public awareness on disease prevention is important to mitigate the pandemic. Keeping in view the urgency and gravity of the situation our college took the initiative to spread the awareness through various ways.

⌘ Mask and Hand sanitizer distribution in Pirda village

Our college distributed masks and hand sanitizer in Pirda village. All the faculty members of our college visited houses of villagers and tried to help locals adapt to the current challenges faced due to the pandemic. The staff members discussed with locals

about their worries and educated them about the significance of wearing masks, proper washing of hands, social distancing and other preventive measures. Also with the help of banners the symptoms of the disease were explained so that misconceptions can be cleared as easy access to digital platforms augmented the unrest and panic among villagers due to spread of fake news.

¶ Vaccination Awareness Initiative

Our Faculty Member and student recorded motivational song to create awareness among people regarding above 18 age group vaccination. Such collaborative and cooperative efforts of students and faculty members were unique initiative to capture people's imagination and in dispelling the myths and creating awareness. Being responsible academic institution our faculty members followed the covid guide lines given by higher education and university during lock down period. Our faculty members took online classes from home in the whole period. Teachers regularly informed the students about the preventive measures in the classes. Also on line notes and study materials were provided to the students so that they do not panic during this difficult situation and can study from home.

¶ Academic initiative

Covid -19 pandemic has affected the people all over the world. This pandemic has affected health, trade, business and almost all activities of life. So our college took the initiative to provide platform to the academicians for expressing their views and experiences on the same. Hence a Webinar was organised on the subject "Impact of Covid-19 on employment in organized and unorganized sectors of Chhattisgarh". The webinar covered discussion on various topics regarding impact of covid-19 and lockdown measures on trade and commerce such as effect on MGNREGA workers, street vendors, railways, forest dwellers of C.G. and MSME etc. Such webinars not only are the hub of knowledge accumulation but also helps in handling misconceptions and panic in such situations.
